

Who We Are

E Corp is guided by four principles: customer obsession rather than competitor focus, passion for invention, commitment to operational excellence, and long-term thinking. We strive to be Earth's most customer-centric company, Earth's best employer, and Earth's safest place to work.

We strongly believe in providing perfect Service to our customers.

Challenges

You will have access to hand-crafted challenges meant to reflect the reality of cyber-security in a big company. You'll capture flags, compete with each other, and climb on out leaderboard. We believe in competition as a core value.

Learning Opportunity

We have partnered with a number of cybersecurity and computer science schools! If you are a student, ask your pedagogical team about evaluation and rewards.

It will involve challenge completion, but also PoC (Proof of concept) for each of them, with a repeatable script in the language of your choosing, and cybersecurity knowledge evaluation.

Have fun !

We strongly believe in providing perfect Service to our customers.

Our Vision

A world where digital tools seamlessly integrate into daily life, boosting human potential and sustainability. We lead the way to a smarter, greener, and more equitable future for everyone.

Our Mission

We create user-centric, reliable products that solve real problems and inspire creativity. By combining cutting-edge research with responsible design, we make technology accessible to all.

Our Goal

To empower billions with secure, innovative technology that simplifies everyday life. We aim to connect the world, delivering solutions that spark progress and enrich experiences
